FOREWORD

Ordinarily, a Directory would not require a special introduction or foreword as its contents are presumed to speak for themselves. Since this Directory, however, is the first of its kind ever attempted in the interest of Psychic Science and Spiritualism from an International standpoint, and as it is intended to make this an Annual publication, to appear on the first of January of each succeeding year, it may be permissible to call attention to some details in connection with the publication thereof.

We welcome the co-operation of all those who may be interested in the subjects covered herein in order to give this compilation a firm foundation and to insure a more complete Directory in each succeeding issue over that preceeding it. We especially desire to hear from those in foreign countries who would be willing to act as contributing editors to give their own country the fullest measure of representation possible.

We request that every one interested in the publication of a Directory such as this, will study the formation of the book as presented in its various sections so as to become familiar with the arrangement thereof, and we will appreciate contributions of material that should be included therein.

All changes of addresses should be reported promptly and all new material should be submitted without delay. Advertising copy should be forwarded not later than December 1st.

Distribution arrangements have been perfected in over thirty different countries, and we anticipate that aside from dealers, libraries and other institutions, hundreds of societies and spiritualist churches throughout the country will offer this Directory for sale at their meetings, thus assuring a wide circulation for the Directory, which is most desirable in the interest of the various movements and for the benefit of the individual workers represented therein.

A Directory of this kind admits of no jealousies as between either different movements or individuals, since the compiler and publishers offer the pages thereof, without fear or favor, impartially to all.

It must be borne in mind that the lists of names indicated herein are not selective and neither the compiler nor the publishers hold themselves responsible for any representations or qualifications that may be attached to any organization or individual name that may appear herein. The designations are given as a matter of information only and without any guarantee whatsoever.

This Directory should not be confounded with "Hartmann's Who's Who" which is a Biographical and General Reference Work, relative to which an announcement will be found on page nine.

Everyone interested in our work is invited to send us a letter of comment, criticism, commendation or suggestion. These expressions relative to the desirability of this Directory will be taken under serious consideration and will act as a guide to us for future issues.

Psychic Science Comes Into Its Own

(From *"Light,"* London, issue of October 8th, 1927, p. 481)

MESSAGE TO "LIGHT" FROM PROFESSOR RICHET

Professor Charles Richet, general president of the Paris Psychic Congress, has kindly sent a message to LIGHT, of which the following is a translation:—

"The International Congress of Psychic Science (or, rather, Metapsychics), held this year at the Sorbonne, is a sign of the times. Our science has taken its place among the classical sciences, officially recognised, since it now has its seat at the Sorbonne, that jealous guardian of tradition, which for five hundred years has represented all the universities of France. It is to be noted that university professors, especially those of Germany, are well represented. We have professors from Bonn, Leipsic, Giessen, and Munich Universities respectively; this also is a sign of the times. The lectures have been numerous and highly scientific—few theories, many facts. The experimental method, based on discoveries of contemporary physics, has place of honour.

"It is a long time since psychic science was solely in the hands of incompetent or fanatical persons. It has at last been understood that, in order to be able to discuss the matter suitably, one must have a *specialised* education. One no longer becomes a metapsychist extemporaneously, any more than one can become an extemporised astronomer or geologist. However, the metapsychists have not been backward, for the facts brought forward by the Spiritualists have been developed to their full.

"We hope that LIGHT, the advance-guard of this knowledge (formerly called 'occult') will give some space to all the lectures given by savants from Paris, Warsaw, Athens, Riga, Berlin, Bonn, Prague, Brussels, Milan, Genoa, Giessen, Leipsic, London, and New York. It will be seen that the congress is entirely international."

WANTED

An Endowment of $500,000.

to establish a NATIONAL LABORATORY for Psychical Research in America

William Ewart Gladstone, the famous English Premier, said: "Psychical Research is by far the most important work that is being done in the world."

The Literary Digest states: "The public giving to education is perhaps the most adequately recorded, says Mr. Furst, and he informs us: 'The United States Bureau of Education reports the increase between 1900 and 1926 of the equipment of our universities and colleges from 162 to 1,356 millions in dollars, their endowments from 147 to 938 millions.' "

BUT WE HAVE NO LABORATORY FOR PSYCHICAL RESEARCH.

Professor Charles Richet, eminent scientist of France, said in 1927: "Our science (psychic) has taken its place among the classical sciences, officially recognized, since it now has its seat at the Sorbonne, that jealous guardian of tradition, which for five hundred years has represented all the universities of France."

What greater boon could one give to humanity than to demonstrate survival of human consciousness after so-called Death?

Who will immortalize him/herself in founding a National Laboratory for Psychical Research in the United States?

Eminent scientists and researchers will come forward to act on the Council of such an institution.

"A CALL TO THE REVOLUTION OF THE 'SPIRIT' AGAINST 'MATTER' IN THE NAME OF FREEDOM, OF SPIRIT, OF LIFE AND OF LOVE FOR EVERY HUMAN BEING—

THE WORLD'S BLOODLESS REVOLUTION."

By

His Imperial Highness, Alexander, The Grand Duke of Russia

I have decided to write a few explanatory words to those of my friends who have heard and have shown more than a general interest in my ideas.

In my lectures I was bound by the request of my Manager to speak primarily about the experiences and incidents of my life and have only been able to insert in the history of it, my basic outlooks on human life. But in truth the only thing which interests me and the sole reason for my coming to America is to explain my deep convictions, which are the results of the lesson which my long eventful life has taught me.

I had in life everything which, according to the current idea, represents the greatest happiness. I had power, limitless means, not knowing the value of money. I had a position which placed me above any laws, the fate of men depended on my word or gesture; but the great Revolution broke out and on a certain morning, I awakened to the realization that I had nothing. I had lost all and had been deprived of all the so-called blessings of life.

Every material thinking man would have felt himself deeply miserable but I, for the first time in my life, felt full freedom from all the useless burdens which attached me to earth and bent me to it. More and more was I absorbed by the feeling of true, cloudless happiness.

How did it happen? The reason of it was that, having lost everything, I had not lost my soul which, being freed from captivity, began to talk in me and to me. It raised me above the trivialities of life and assigned me to ways of that real happiness which is the result of following the fundamental law of the world—the law of love in our spiritual and material life.

When we follow the law of love, of which Christ was the Revealer, we give our soul the possibility of getting into contact with the superior powers, and with the Supreme Power which we call God. That is the way on which the revaluation of all the seeming values takes place, on which the true values come into play and on which we are led to true freedom and true happiness.

The response which my lectures met in America, the attention to the ideas which I am promulgating call for something definite, but above all the inner voice which first spoke to me forced me to pass from words to action.

It is essential that we form an organization which will unite women and men who think along the same lines as I do. One must create a new and unique center of persons who place the interests of spiritual development and the domination of the spirit in the current daily life as the principal point of their existence. This organization must have as its first aim the spiritualization of the educational system and then adapt it to the development of a spiritual character.

This organization must develop on broad lines, actively fighting against the existing solely materialistic outlook on life. With the help of articles, pamphlets, books and lectures we must unveil the fundamental false basis of our present life, which is the cause of all the calamities of modern humanity—the cult of materialistic principles.

Special types of teachers must be prepared for the schools and special manuals written in which the ethic principles must be bound together with the spiritualization of life and with the fundamental law of the spiritual life—the law of love.

The organization and the centre will gradually come to the realisation of the need of the spiritualisation of the penal code and of legislation. People will come to understand that the penalty of death is inconsistent with the interests of the spiritual development of humanity.

The inter-murder en masse, which is called War, must be disavowed and prevented in the future by the inculcation of peace ideas in the education of the child. This can be done only from the standpoint of recognizing the rights of the soul and the spiritualization of our life on the basis of the law of love. The organizing centre must be built according to a special plan and by the creation of a number of committees and allied sections.

I am working on the formulation of this plan and would like to know if you will be ready to cooperate and work with me. The material side of the plan will be developed later, when a group of active promoters has formed itself.

NOTE:—All those in whose heart the words of the Grand Duke strike a responsive chord, and who desire to join in his effort to form a "Fellowship of Humanity," as a "Legion of Christ," and "Spiritual Democracy," to practice "The Religion of Love," are urged to communicate their sentiments to His Imperial Highness at the above address. THE SURVIVAL LEAGUE

Founded and Organized by Mrs. C. A. Dawson Scott of 125, Alexandra Road, London, N.W. 8.

The following announcement was issued in London, November, 1929:

In drawing your attention to the Survival League we, as representing the Executive Committee and General Council, wish to make it clear that this is no new society, as such; but an attempt to link societies already in existence and all people outside those organizations who have had definite proof of SURVIVAL. No group or individual linked with the SURVIVAL LEAGUE can be asked to subscribe to any but the one tenet of a belief in Survival as proven and demonstrable. By uniting, however, they will be able to give a unanimous answer to the greatest of all questions: "Life after Death through established communication with those who have died"—and union is strength.

We ask your co-operation as a society, accepting Survival as a fundamental basis of existence, to make this League the power for good which it may become if those who have this definite proof will join, irrespective of what their religious or other views may be.

EXECUTIVE COMMITTEE:

Chairman, H. DENNIS BRADLEY; MAURICE BARBANELL, JULIA CANNAN, F. FIELDING-OULD, NOEL JAQUIN, FRANK WHITMARSH, TREVOR BLAKEMORE, SHAW DESMOND, DAVID GOW, ESTELLE STEAD.

COUNCIL:

OLIVER BALDWIN, H. N. BOLTON, W. R. BRADBROOK, STANLEY DE BRATH, QUENTIN CRAUFURD, A. CONAN DOYLE, CONSTANCE HOLME, L. LIND OF HAGEBY, G. R. S. MEAD, HERMON OULD, MRS. ST. CLAIR STOBART, MR. SIMPSON, H. DE VERE STACPOOLE, HANNAN SWAFFER, ANNA WICKHAM, N. P. WILLCOCKS, L. G. McFARLANE.

FOUNDER and ORGANIZER:

C. A. DAWSON SCOTT.

For additional details as to the formation of The Survival League, see section on Spiritualism (England) in this Directory.

It has been proposed to found a Survival League in the United States, to operate in conjunction with the Survival League of England, and similar Leagues that may be formed in other countries.

The Survival League will make for a common meeting ground for all societies and individuals to whom survival is a demonstrated fact, to the exclusion of any controversial points in psychic or spiritualistic philosophy.

All those who can subscribe to the tenet that survival after bodily death is a demonstrable fact, will please file their names and addresses with us, in anticipation of receiving further details as to the formation of a Survival League in the United States, working in conjunction with the lately formed Survival League of England.

In filing names, it is requested that you indicate whether you would be interested in becoming active in the conduct of the League from a National, State or Local standpoint; it being anticipated that the Survival League will create an appeal that will induce branches being conducted in every State of the Union.

Address all communications to the National Organizer:

"IF"

By B. F. AUSTIN

IF I can throw a single ray of light
Across the darkened pathway of another;
If I can aid some soul to clearer sight
Of life and duty, and thus bless my brother;
If I can wipe from any human cheek a tear,
I shall not then have lived in vain while here.

If I can guide some erring one to truth,
Inspire within his heart a sense of duty;
If I can plant within the soul of rosy youth
A sense of right, a love of truth and beauty;
If I can teach one man that God and Heaven are near,
I shall not then have lived in vain while here.

If from my mind I banish doubt and fear,
And keep my life attuned to love and kindness;
If I can scatter light and hope and cheer,
And help remove the curse of mental blindness;
If I can make more joy, more hope, less pain,
I shall not then have lived and loved in vain.

If by life's roadside I can plant a tree,
Beneath whose shade some wearied head may rest;
Though I may never share its shade, or see
Its beauty, I shall yet be truly blest—
Though no one knows my name, nor drops a flow'r upon my bier,
I shall not then have lived in vain while here.

It was this inspirational poem by the Rev. B. F. Austin of Los Angeles, California, that induced Mr. Hartmann to engage in the works he has brought out to aid those in search of Truth.

New York Section

Chairman, William M. Cannon; Vice-Chairman, Major R. T. M. Scott; Second Vice-Chairman, Mrs. Charles Cornell; Secretary, Miss Ethel Stebbins; Treasurer, Mrs. Lawrence Jacob.

Purpose and Scope of the Society

1. The investigation of alleged telepathy, visions and apparitions, dowsing, monitions, premonitions, automatic writing and other forms of automatism, as speaking, drawing, etc.), psychometry, coincidental dreams, clairvoyance and clairaudience, predictions, physical phenomena (such as materialization, telekinesis, rapping and other sounds), and in short, all types of mediumistic and metaphychical phenomena.

2. The collection, classification, study and publication of reports dealing with the phenomena designated above, from first-hand acquaintance and seemingly in good faith. Members especially, but also non-members, are asked to supply data or to give information where such may be obtained. Names connected with phenomena must be supplied, but on request these will be treated as confidential.

3. The maintenance of a Library on all subjects embraced in psychical research, and bordering thereupon. Contributions of books and periodical files will be welcomed and acknowledged in the Journal.

4. Encouragement of the formation of local groups in all parts of the country which will co-operate with and report to the American Society; and the encouragement of qualified individuals disposed to give attention to investigation with like co-operation.

History of the Society

The First American Society for Psychical Research was formed in 1885, in consequence of a visit by Sir W. F. Barrett to this country, and Prof. Simon Newcomb became its President. In 1887 the Society invited a man of signal ability, Richard Hodgson, A.M., LL.D., sometime Lecturer in the University of Cambridge, to become its Executive Secretary, and he accepted.

This organization later became a branch of the English Society under the very able guidance of Dr. Hodgson until his death in 1905. The American Society for Psychical Research was then re-established with James H. Hyslop, Ph.D., formerly Professor of Logic and Ethics in Columbia University, as its Secretary and Director.

The Endowment

The American Society for Psychical Research, Inc., was incorporated under the Laws of New York in 1904 under the name of American Institute for Scientific Research, for the purpose of carrying on and endowing investigation in the fields of Psychical Research and Psycho-therapeutics. It is supported by contributions from its members and an endowment fund which now exceeds $275,000. The income of the Society pays only for the publications and office expenses, but does not enable the Society to carry on its scientific investigations. A much greater sum is required before this work can be carried forward with the initiative and energy which its importance deserves.

The endowment funds are dedicated strictly to the uses set forth in the deed of gift and are under control of the Board of Trustees, the charatcer and qualifications of whom are safeguarded, as with other scientific institutions.

Moneys and property dedicated by will or gift to the purposes of the American Society for Psychical Research, Inc., whether to the uses of psychical research or psycho-therapeutics, are earnestly solicited. The form which such dedication should take when made by will is indicated in the following:

Form of Bequest

"I give, devise and bequeath to the American Society for Psychical Research, Inc., a corporation organized under the laws of the State of New York, the sum of .... dollars (or if the bequest is real estate, or other specific items of property, these should be sufficiently described for identification), in trust for the corporate purposes of said Society."

Membership in the Society

Membership in the American Society for Psychical Research, Inc., does not imply the acceptance of any particular explanation of the alleged facts collected by it, or even of the facts themselves. Membership stands only for investigation of the alleged phenomena.

Members, who receive the Proceedings and the Journal, pay an annual fee of $10. One may become a Life Member or endow a Memorial Membership on payment of $200.

Associates, who receive the Journal only, pay an annual fee of $5. One may become a Life Associate on the payment of $100.

Fellows, who receive all publications of the Society, and are afforded special library privileges, pay an annual fee of $25. One may become a Life Fellow on the payment of $500.

Founders and Patrons. For those who wish, through life subscriptions, to make a still larger contribution to the Society's work, these two classes are open, at fees of $5,000 and $1,000, respectively.

It must not be forgotten that membership in a scientific society means more than merely a subscription to the Journal of that Society. The work which is reported in the Journal must be largely carried on through the income from membership fees. Therefore, we hope you will make your membership class as high as you feel you reasonably can.

Official Organ: PSYCHIC RESEARCH is published monthly by the American Society for Psychical Research, Hyslop House, 15 Lexington Ave., New York, N. Y., to which communications, including change of address, may be sent. Entered as second class matter February 18th, 1928, at Post Office at New York, N. Y., under Act of March 3rd, 1879. Yearly subscription, $5.00. Single copies, 50 cents.

THE BALTIMORE PSYCHIC STUDY CLUB. (Founded, 1926.) 1323 Eutaw Place, Baltimore, Md. President, Mrs. H. R. M. Thom; Secretary, Mrs. J. Wheeler.

The Psychic Study Club includes doctors, lawyers, manufacturing executives, real estate men, writers, scientifically trained men, business women, teachers, and women engaged in managing their homes and in rearing their children. Their lives are distinctly matter of fact and unemotional. Perhaps the outstanding characteristic of the members is their normality. Persons who are high strung, nervous, or who have strong religious prejudices, or who have a tendency to be gullible—would not find the group congenial. Honest skepticism is not only desirable—but welcomed.

BOSTON SOCIETY FOR PSYCHIC RESEARCH. 346 Beacon St., Boston, Mass. Founded in May, 1925. Executive Research Officer, Dr. Walter Franklin Prince.

OBJECTS: 1. The investigation of all those alleged supernormal phenomena the study of which is generally embraced under the term "psychic research." 2. The collection and preservation, critical study and publication, of data on such subjects. 3. The formation of a library on subjects included in, or helpful to, psychic research. 4. Whatever tends to forward the objects already named, or to inform and assist students and inquirers in this field of research.

DECLARATION OF PRINCIPLES

1. Character of the Work.

(a) The primary work of the Society is investigation and the publication of results, either its own or such as are originally contributed to it. Whatever other activities may seem desirable, none shall be permitted to encroach upon or to hamper this work of first importance.

(b) All research work under the auspices of this Society shall be undertaken with the sole aim of ascertaining truth. The Society shall not assume collectively to express or propagate any interpretations of phenomena investigated.

2. Qualification and Privileges of Members.

(a) Membership in this Society shall be deemed to express sympathy with its principles and the purposes of forwarding its declared objects.

(b) Every member of the Society is entitled to his own opinions regarding the facts and their explanation, and membership shall not imply that he is committed to any particular views.

3. Rights and Limitations of Contributors.

Every writer whose contribution is accepted for reading or publication is solely responsible for his statements and opinions, and none is entitled to utter them in the name of the Society.

4. Rights of Investigators.

(a) Research on the part of officers intrusted with this work is to be free and untrammeled. They shall have discretionary power to investigate such matters and by such means as they deem best. But they are entitled to have, and shall be provided with, fit advisers.

(b) No official or voluntary investigator shall be liable to discharge, censure or other disabilities because of his opinions in regard to any case or class of cases, but only for proved incompetency, or for conducting his work in an unethical or unbecoming manner, or for behavior otherwise injurious to the Society.

5. Treatment of Psychics.

The good faith of every "psychic" is to be assumed until the contrary is proved, and, in the meantime, he or she is to be treated by the agents of the Society with all courtesy and consideration. Conditions alleged to be necessary for phenomena are to be respected, but if these are manifestly unfavorable to investigation, the burden of proof of such necessity shall rest upon the claimant.

6. Criticism and Discussion.

The Society welcomes intelligent criticism and discussion, but is not bound to consider such as rests upon dogmatic assumptions, or begs the questions at issue, or evinces no disposition to face the facts squarely and treat them fairly.

TITLE—LOCATION—OBJECT

Art. 1.—Between the groups adherent to the present statutes it is founded an union which takes the title of "International Spiritualists' Federation."

The Office of this Federation is settled in Paris, in the "Maison des Spirites," 8, rue Copernic, (16e).

Art. II.—The Frederation's treble purpose is:

1° The creation and maintenance of the ties of fraternity amongst the Spiritualists throughout the world regardless of their race, language or nationality;

2° The study together of the Spiritualism and connected sciences under the scientific, philosophical, moral and religious points of view;

3° The propagation of these studies and the diffusion of facts relative to psychic sciences; the mutual teaching and the practice of solidarity, which is the moral basis of Spiritualism.

Art. III.—The Spiritualism is a philosophy based upon abstract scientific notions which fundamental principles are thus stated:

(a) Existence of God, supreme cause of everything, abstract principle without anthropomorphic character;

(b) Existence of the Soul (or Spirit) bound to the physical body during its life by an intermediary element: perispirit or fluidic body;

(c) Immortality of the soul inseparable from its fluidic body;

(d) Communication through the mediumship between the visible and invisible worlds, between the incarnate spirits (living) and discarnate ones (dead);

(e) Continuous and progressive evolution of the spirits towards perfection across multiple sensible manifestations;

(f) Personal responsibility with application of the Casuality Law.

The "International Spiritualists' Federation" declares not to consider as intangible any of the postulates issued from the fundamental principles above stated; it only settles, as a necessary condition of its existence, the affirmation of these principles. It does not impose any tenet, but invites to the study for it is persuaded it offers the formula which responds to the historic needs of our epoch.

The objects of the organized movement of Spiritualism may be stated in part as follows:

To teach the truths and principles expressed in the Declaration of Principles and in the Definitions of "SPIRITUALISM," "A SPIRITUALIST" and "A MEDIUM," as adopted by the National Spiritualist Association of the United States of America.

To teach and proclaim the science, philosophy and religion of modern Spiritualism, to encourage lectures on all subjects pertaining to the Spiritual and Secular welfare of mankind. To protest against every attempt to compel mankind to worship God in any particular or prescribed manner. To protect and encourage spiritual teachers and mediums in all laudable efforts in giving evidence or proof to mankind of a continued intercourse and relationship between the living and the so-called dead. To encourage every person in holding present beliefs always open to re-statement as growing thought and investigation reveal new truth, thereby leaving every individual free to follow the dictates of reason and conscience in spiritual as in secular affairs. oraiub

Declaration of Principles

1. We believe in Infinite Intelligence.
2. We believe that the phenomena of nature, both physical and spiritual, are the expression of Infinite Intelligence.
3. We affirm that a correct understanding of such expression and living in accordance therewith, constitute true religion.
4. We affirm that the existence and personal identity of the individual continue after the change called death.
5. We affirm that communication with the so-called dead is a fact, scientifically proven by the phenomena of Spiritualism.
6. We believe that the highest morality is contained in the Golden Rule: "Whatsoever ye would that others should do unto you, do ye also unto them."
7. We affirm the moral responsibility of the individual, and that he makes his own happiness or unhappiness as he obeys or disobeys Nature's physical and spiritual laws.
8. We affirm that the doorway to reformation is never closed against any human soul here or hereafter.

Definitions Adopted by the National Spiritualist Association October 9, 1914, and October 24, 1919

1. Spiritualism is the Science, Philosophy and Religion of continuous life, based upon the demonstrated fact of communication, by means of mediumship, with those who live in the Spirit World.

2. A Spiritualist is one who believes, as a part of his or her religion, in the communication between this, and the spirit world by means of mediumship, and who endeavors to mould his or her character and conduct in accordance with the highest teachings derived from such communion.

3. A Medium is one whose organism is sensitive to vibrations from the spirit world, and through whose instrumentality, intelligence in that world are able to convey messages and produce the phenomena of Spiritualism.

"Spiritualism Is a Science" because it investigates, analyzes and classifies facts and manifestations, demonstrated from the spirit side of life.

"Spiritualism Is a Philosophy" because it studies the laws of nature both on the seen and unseen sides of life and bases its conclusions upon present observed facts. It accepts statements of observed facts of past ages and conclusions drawn therefrom, when sustained by reason and by results of observed facts of the present day.

"Spiritualism Is a Religion" because it strives to understand and to comply with the Physical, Mental and Spiritual Laws of Nature, "which are the laws of God."

What Spiritualism Is and Does

It teaches personal responsibility.
It removes all fear of death, which is really the portal of the spirit world.
It teaches that death is not the cessation of life, but mere change of condition.
It teaches, not that a man has a soul, but that man is a soul, and has a body.
That man is a spiritual being now, even while encased in flesh.
That as man sows on earth he reaps in the life to come.
That those who have passed on are conscious—not asleep.
That communion between the living and the "dead" is scientifically proved.
It thus brings comfort to the bereaved, and alleviates sorrow.

Spiritualism is the Science, Philosophy and Religion of continuous life, based upon the demonstrated fact of communication, by means of mediumship, with those who live in the Spirit World.

It brings to the surface man's spiritual gifts, such as inspiration, clairvoyance, clairaudience and healing powers.

It teaches that the spark of divinity dwells in all.

That as a flower gradually unfolds in beauty, so the spirit of man unfolds and develops in the spirit spheres.

Spiritualism is God's message to mortals, declaring that There Is No Death. That all who have passed on still live. That there is hope in the life beyond for the most sinful.

That every soul will progress through the ages to heights, sublime and glorious, where God Is Love and Love Is God.

It is a manifestation, a demonstration, and a proof of the continuity of life and of the truth of the many Spirit manifestations recorded in the Bible.

It demonstrates the many Spiritual gifts with which mankind is endowed but which through want of knowledge have been allowed to lay dormant, or through prejudice have been violently and unjustly suppressed.

NEW YORK STATE SPIRITUALIST PASTORS' ALLIANCE. Founded in 1923. Headquarters, Rochester, N. Y. President, Dr. Alexander J. McIvor-Tyndall; Vice-President, Rev. Oscar Erzkus; Secretary, Howard Mason Pitman; Treasurer, Rev. Nellie Gardener.

Books on Psychic Science and Psychic Enfoldment

"CLAIRVOYANCE—THE LAW OF SCIENCE OF ITS EXPRESSION." First practical book written on this subject. A technical book, most valuable because it shows one how to penetrate the veil of sense, see spirits, enter consciously into communion with the denizens of the Spirit World and realize one's spiritual perception as did Jesus, Appolonius, Mohamet, Swedenborg and countless others. Tenth thousand. Cloth, $1.75.

"CLAIRAUDIENCE." A book of original technical information, with rules and experiments for students who wish to unfold the deeper, spiritual hearing of the soul, so that they may talk with their own departed loved ones and hear their dear voices. This is, without question, a wonderful book and there is a reason for the thousands of copies sold of this book, also of Clairvoyance. The two go together. Clairaudience, paper, 80c.

"AURAS AND COLORS." Tenth thousand. One of the most fascinating and original books ever written. It gives a dictionary of color meanings, by which you know what emotional effect and psychic influence colors have upon yourself.

"TELEPATHY, the Science of Thought Transference." This is the best and most powerful weapon in the hands of the psychologist and psychic students to discredit materialism. Here any student may learn how to transfer thought from mind to mind, regardless of distance, give absent treatments and be certain that the results will be definite and sure. Fifth thousand. Cloth, $1.75; paper, 80c.

"PSYCHOMETRY, or the Sixth Sense." The first scientific work ever written on this enchanting and new subject. Eighth thousand. Paper, 80c.

Thirty Years Among the Dead

By CARL A. WICKLAND, M.D.

This book is of unusual interest to students of the problem of an after-life and the relationship between the two planes of existence, visible and invisible. The author does not seek to promulgate an ism or cult but presents the records of thirty years' experimental research in this obscure field in the interest of psychological science—normal and abnormal. The evidence obtained, with the assistance of Mrs. Wickland, the author's wife, whose remarkable psychic endowment has made direct contact with the invisible world possible, has indubitably demonstrated that

DEATH, SO-CALLED, IS A MISNOMER

and that discarnated Intelligences play an important role in human affairs, both for good and for evil.

"The Guiding Power
or the
Plan of the Universe"

By GEORGE STARR WHITE, M.D.
Ph.D., LL.D., F.R.S.A. (London)
Los Angeles, California, U. S. A.

The Key of Life opens the Portals of Death.
A Soul in Bondage is Liberated when its Keeper Dies.
To Understand Death is the Greatest Desire of the Living.
"After Death" is what we make it.
The "Dead" are the Rulers of the Living.
Only thru "Death" can the Soul Progress.
In Life, one Builds the Hy-Way his Soul shall Travel.
Guard Your Living, but Dread not Death.
Death is Timely to all who are Prepared.
Death is a Debt Nature Demands of us All.
Death is but a Transition from One Life to Another.
Goodness in Life Assures Happiness in Death.
If you Fear Death it is YOUR Fault.

PROPHECIES OF GREAT CHANGES COMING

A new day is dawning; the long night is spent, and the day has now come when God's Kingdom will become a reality on the earth plane. It has been prophecied and will be fulfilled. The world is passing through the throes of a new birth. What has occurred in the past few years, the world war, earthquakes, floods, etc., are minor occurrences compared to what is to take place in the next decade or two. Hate, greed, national jealousies, etc., have become too deep-rooted to reform. Evil contains within itself the elements of its own destruction. Read this book and learn what the prophets, seers and enlightened minds are foreseeing. 32 page booklet, 25 cents. 5 copies for a dollar. Sample copy of The Aquarian Age will be sent free with each book.

"AUROSPECS"

MEANS

Kilner Screens Perfected

The late Dr. W. J. Kilner, B.A., M.B. (Cantab), M.R.C.P., etc., was the medical electrician at St. Thomas's Hospital, London. He regularly used the dicyanine screen to diagnose disease.

His book, "The Human Atmosphere," created a sensation, because it means that he has discovered a mechanical method of adjusting the focal range of the eye so that previously invisible forces can be seen. This applies particularly to the aura, which is usually shown by artists as a halo around the heads of saints. He also claimed to see an etheric body otherwise known as the spiritual body or psychic organism.

HE CLAIMED THAT 95 PER CENT CAN SEE THE AURA

Modern Clairvoyants, who diagnose disease, do this habitually, but believe they are specially favoured.

IN OTHER WORDS, Dr. Kilner asserts that NINETY-FIVE PEOPLE out of EVERY HUNDRED can be MADE CLAIRVOYANT.

His experiments also proved that regular use of Dicyanine strengthens the sight of presbyopic people.

WHAT KILNER SAW, OTHERS MAY SEE.

Some are able to see the aura immediately; others develop the power gradually by accustoming their eyes to a newer focal range by the steady, regular use of "Aurospecs."

The original screen was formed from optically perfect glasses cemented together, enclosing a specially compounded solution of alcoholised dicyanine. The great expense of this combination—two to four guineas being the usual charge—prohibited general use, and led to substitution of coloured water, coloured glass, and gelatines, which, being quite useless for the purpose, brought ridicule upon the subject. To guard against this deception, we have registered the word

"AUROSPECS,"

and provisionally patented a combination which perfects Dr. Kilner's formula, and so materially reduces the cost, that **it is now possible to become a seer yourself at the price usually paid for one seance** with a professional clairvoyant. **ONE GUINEA ONLY.**

As Dr. Kilner's statements are somewhat misleading to the uninitiated, and so much misconception exists on the subject, we have hitherto refused to sell **"AUROSPECS"** unless purchasers have read his book **AND** our lessons on clairvoyance and trance, but as our Four Postal Lessons on "Aura, Auricsight, Aurospecs, Kilner," contain sufficient details for Spiritualists or Occultists, we make the following offer:—

To readers of these Lessons, post free 2/6 (.75),
"AUROSPECTS" WILL BE FORWARDED POST FREE for ONE GUINEA ($5.00).

We can forward at the same time

THE AUTHORIZED ROSICRUCIAN TEACHINGS
ASTROLOGY
CHRISTIAN MYSTICISM

It is cause for general gratification that, in these days of religious doubt, controversy and unrest, individuals are striving more than ever before to find out for themselves the basic principles that underly all life and conduct. It is in the interest of this individual research that we now offer the helpful and inspiring courses described below.

I. The Course in Rosicrucian Principles.

Since 1407, when the Rosicrucian Fraternity first manifested in Europe, thousands and thousands of earnest, right thinking men and women have found inspiration for their spiritual and help for their mental life in its exoteric teachings.

Rosicrucian ideas are never static. They change with the changing times. If other philosophies of living have proved inadequate, investigate Rosicrucianism. Avail yourself of the veritable treasure chest of inspiration and opportunity now awaiting you in this fascinating study, which embodies the priceless wisdom bequeathed by generations of brothers who sought to lift the veil that divides the seen from the unseen—to find the hidden source of the Great Life Power that, once understood, can give you all that you desire. Write today for **free** booklet, "Mastery of Destiny."

II. The Course in Astrology

Since time immemorial, mortals have gazed at the astral beauty of the firmament and wondered what causes produced the stars and what effects their various positions have on individual destinies. The position and influence of the stars have always been the most fascinating and revelatory of studies. Write for information about one of the most absorbing courses in Astrology ever offered.

III. The Course in Christian Mysticism

Down through the ages, Science and Theology have sought the Beginning and Source of all things. Now, as never before, they are at variance. This is because of failure on the part of both to grasp an underlying principle, known as the "mystical element." True mysticism is the exclusive attribute of true Christianity, as the repository and fulfillment of ancient prophecies and divine revelation. Scores who have taken this course have acclaimed it one of the most helpful and inspiring influences in their lives. Enrollments now being received. Write for further information.
